Tuesday May 19, 2020.

Hi Grade 2's.

I hope you all had a wonderful weekend. Saturday and Sunday were beautiful days. We spent both days outside. We took several walks through the bush and we planted our garden.

When we were walking through the forest this weekend, look what we found. We have many trilliums in our bush. I took a few pictures. I love the red trilliums.

Fun Facts About trilliums:

1. A trillium has 16 seeds.
2. Ants spread trillium seeds in a bush.
3. It takes 7 to 10 years for a trillium to bloom.
4. Trilliums love light.
5. If you pick a trillium, no other trillium will grow in its place.
6. White tail deer love to eat trilliums. It is like candy to them.
7. In 1937 the trillium became Ontario's Official Flower.
8. A white trillium is an official symbol of the Government of Ontario.

Have a wonderful day friends! I am participating in an online meeting today, so I might not respond to your emails until tonight or tomorrow.

Why do birds lay eggs in the spring?

I had so much fun at our virtual class meeting on Thursday. It was wonderful to see your faces and hear your voices :)

Some of you were talking about seeing birds and their nests, so today's lesson is about nests.

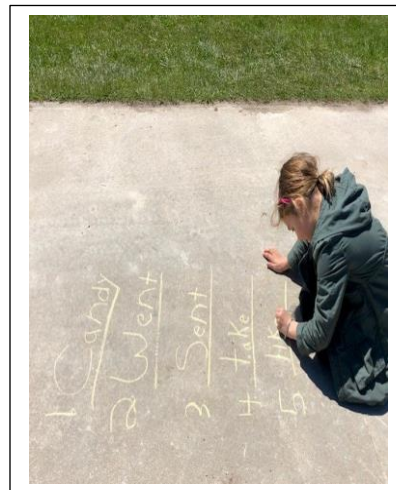

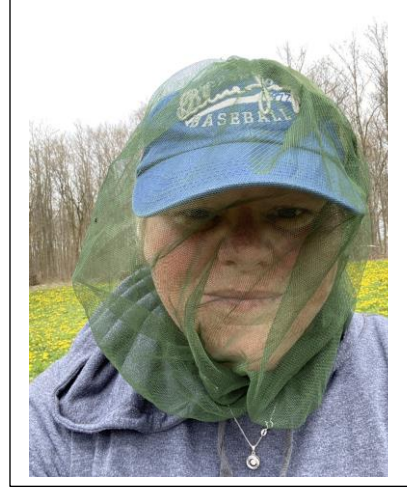

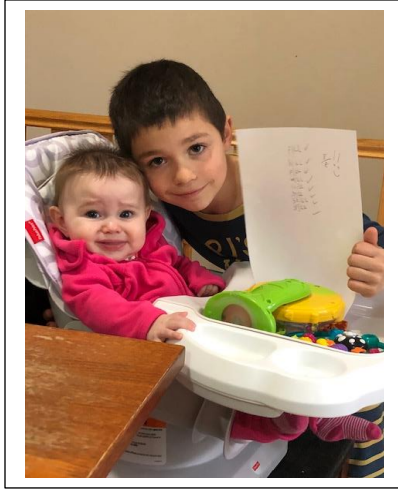

Watch this video [Why do birds lay eggs in the spring?](#)

- What did this video make you curious about?
- What other questions do you have about birds?

Tech free activity: Can you build a nest that will hold an egg? Give it a try. If you can go outside, gather twigs, leaves, and grass to build with — just like birds do! If you can't go out, use torn paper, rolled up paper, and string. You can't use glue or tape! When you're done building, test your nest with something round — like a marble, or even a real egg!

Have a **terrific Tuesday** everyone!
